Fabric requirements & pre-work

Refer to the quilt block planning diagram to help with planning/purchasing fabric.

Quilt size: 56" x 56"

You really want fabrics "A" (position 1) to POP!

Two sets of instructions are listed below, 1) cutting for the entire quilt and 2) cutting just what is needed for the class. This way if you like to cut everything ahead of time, you can or if you're super busy and can't get to it until the night before, just cut what's needed for the class.
